2. Information about the accounting principles applied in the preparation of the condensed interim consolidated financial statements

2.1. Declaration of compliance with IFRS

Interim condensed consolidated financial statements of Inter Cars S.A. Capital Group (hereinafter referred to as "the condensed interim financial statements") were prepared for the period of 6 months ended on 30th June 2015.

The condensed interim financial statements comply with the requirements of the International Accounting Standard IAS 34 "Interim Financial Reporting" related to interim financial statements, and do not contain all the information required for annual financial statements. The condensed interim financial statements should be read together with the annual consolidated financial statements prepared in compliance with IFRS standards ended on 31 December 2014. In the reported period there were no changes and amendments to the accounting standards in comparison to those described in the financial statements for the period ending on 31 December 2014.

Changes in IFRS and their interpretation which became effective as of 01 January 2015 until the date of approval of the financial statements for publication had no material bearing on these financial statements.

Changes in IFRS and their interpretations published and approved by the EU not yet effective:

Standards and interpretations approved by	Potential bearing on the financial

Changes to IAS 19 Employee benefits -	no bearing expected
Programs of particular benefits:	
Employees' premiums	
Amendments to International Financial	no bearing expected
Reporting Standards 2010-2012	0 1 333

The Company anticipates no bearing on the consolidated financial statement.

In this financial report the Group decided not apply in advance the published standards or interpretations before their date of entry into force. The Group intends to use them for the periods for which they are applicable for the first time.

The following Standards and Interpretations adopted by the International Financial Reporting Standards Board (IASB), awaiting EU's approval:

Standards and Interpretations awaiting EU's approval

New standard IFRS 9 - Financial Instruments

New standard IFRS 14 - Regulatory deferral accounts

New standard IFRS 15 - Revenue from Contracts with Customers

Changes to IFRS 11 – Joint Arrangements Accounting for Acquisitions of Interests in Joint Operations

Amendments to IAS 16 - Property, Plant and Equipment and IAS 38 Intangible assets: Clarification of Acceptable Methods of Depreciation and Amortisation

Amendments to IAS 16 - Property, Plant and Equipment and IAS 41 Agriculture: Agriculture - Bearer Plants

Amendments to IAS 27 – separate financial statements Equity Method in Separate Financial Statements

Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

Amendments to International Financial Reporting Standards 2012-2014

Amendments to IFRS 10 Consolidated Financial Statements, IFRS 12 Disclosure of Interests in Other Entities and IAS 28 Investments in Associates and Joint Ventures: Investment Entities: Applying the Consolidation Exception

Amendments to IAS 1 - Presentation of Financial Statements Disclosure Initiative

The new standard IFRS 9 Financial Instruments changes completely requirements previously issued and the additional amendments to introduce a new expected loss impairment model and limited changes to the classification and measurement requirements for financial assets. The changes can potentially influence future financial statements of the Group. As at the date of the statements, the standard IFRS 9 has not been approved by the European Union and its influence on future financial statements of the Inter Cars Group is unknown.

The new IFRS 15 contains principles which are to replace most of the current detailed guidelines specifying the method of recording revenue. In particular, IAS 18 - Revenue, IAS 11 - Construction Contracts and interpretations thereof shall cease to apply following adoption of the new standard. According to the new standard, the entities shall apply a 5-level model to determine the point of recognition of revenue and its amount. According to this model, revenue should be recognized upon the handing over of goods or services to the customer, and in the amount to which an entity expects to be entitled. The Standard provides for new requirements with regard to quantitative and qualitative disclosures aimed at allowing the financial statements users to understand the nature, amount, point of recognition, as well as uncertainty related to revenues and cash flows resulting from agreements with clients. An analysis of the standard's bearing on the Group's future financial statements has not been completed yet.

According to the Group's estimates, the other standards, interpretations and changes to the standards would not have a significant bearing on the consolidated financial statements if they were applied by the Group as at the balance sheet day.

The condensed interim consolidated financial statements of the Inter Cars S.A. Capital Group were approved for publication by the Management Board on 31 August 2015.

2.2. Basis for preparing the condensed interim consolidated financial statements

The attached condensed interim financial statements were prepared in accordance with the same accounting standards as those applied to prepare the annual financial statements for the financial year ended on 31 December 2014.

The condensed interim consolidated financial statements of the Inter Cars S.A. Capital Group were prepared under the assumption that the entities in question will continue as a going concern in the foreseeable future.

All values presented in the condensed interim financial statements are quoted in PLN '000, unless otherwise indicated.

2.3. Material evaluations and estimates

The preparation of the condensed consolidated interim financial statements in conformity with the EU IFRS requires the Company's Management Board to use evaluations and estimates that affect the application of accounting principles and reported amounts of assets and liabilities, income and expenses. The judgements and estimates are reviewed on an ongoing basis. Revisions to estimates are recognized in the period in which the estimate is revised.

In the reporting period in question there were no important changes in judgements or estimates described in the annual consolidated financial statements for 2014.

2.4. Seasonality

The demand for spare parts is seasonal. The peak season falls on the second and third quarters. The demand decreases at the beginning and at end of the year.

This is directly linked to the seasonal nature of some repairs for which the spare parts are required, and to the smaller number of repairs made by clients during winter.

2.5. The functional and the presentation currencies and the principles adopted to translate the financial data.

The presentation and the functional currencies

The functional currency of the parent company and the presentation currency of these condensed consolidated interim financial statements is the Polish zloty (PLN). The figures presented in these financial statements are expressed in thousands of PLN, unless indicated otherwise.

The principles adopted to translate the financial data

Translation into PLN of the financial statements of the foreign entities for the consolidation purposes:

- assets and liabilities according to the exchange rate as at the end of the reporting period,
- statement of profit or loss or statement of other comprehensive income, as well as the statement of cash flows according to the average exchange rate during the reporting period.

Foreign currency gains/losses resulting from the above-mentioned translation are recognized in equity as foreign exchange gains/losses from translation of foreign subsidiaries.

UAH/PLN	0.1729	0.2840	0.1780	0.2246

The average exchange rate during the reporting period is calculated as the average NBP exchange rate applicable on the last day of each month of the first six months of 2015 and 2014.

2.6. Information on business segments

The core business of the Inter Cars S.A. Capital Group is the sale of spare parts. In addition, the companies Feber, Lauber, IC Development and ILS Sp. z o.o. are active in other business segments, such as the manufacture of semi-trailers, remanufacturing of spare parts, real estate development and logistics; whilst Q-Service Truck Sp. Z o.o. is an authorized dealer of ISUZU commercial vehicles. The above-mentioned business segments may not be recognized as separate business segments individually, hence they are shown in the "Other segments" column.

The Inter Cars Capital Group applies uniform accounting principles to all segments. Transactions between particular segments are carried out at arm's length.

2. Basis of preparing the condensed interim consolidated financial statements

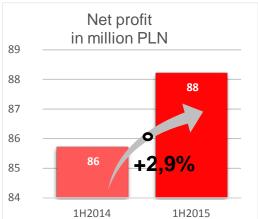

The condensed interim consolidated financial statements of the Inter Cars Capital Group were prepared for the period of 6 months ended on 30 June 2015.

The condensed interim financial statements comply with the requirements of the International Accounting Standard IAS 34 "Interim Financial Reporting" related to interim financial statements, and do not contain all the information required for annual financial statements. These condensed interim financial statements should be read together with the annual consolidated financial statements.

3. Overview of the Group's operations on consolidated and separate basis for the period from 01 January 2015 – 30 June 2015.

Overview of the financial results of the Inter Cars Group for the first half of 2015

- The consolidated revenues on the Group's sales increased by 17.6% compared to the same period of 2014.
- Export sales understood as direct sales (from Inter Cars S.A.) to overseas contractors (mainly from Eastern European markets) and to overseas distribution companies increased by 30% compared to the same period of the previous year, where:
 - direct sales to foreign customers in the first half of 2015 amounted to PLN 92 m, a 9.4% decrease compared to the first half of 2014. The main reason is a reduction in demand in Ukraine as a result of geopolitical situation and conflict with Russia.

- sales by the foreign distribution companies amounted to PLN 696 m in the first half of 2014, accounting for a nearly 38% growth.

Just like in the 1 half a year 2014, the sales of the overseas distribution companies have been more dynamic than the export sales of Inter Cars S.A.

Inter Cars' domestic revenue accounted for app. 62% of the Group's total revenue (including consolidation exemptions), compared to 67% in the frist half of 2014. The Polish market remains the basic sales market for the Capital Group.

- The consolidated sales margin amounts to 30.4% and is 1.1 p.p lower than in the first half of 2014. During the periods subject to comparison, the impact of foreign exchange fluctuations on the margin was insignificant (0.44 p.p. in the first half of 2015 and 0.35 p.p. in the first half of 2014).
- The consolidated margin on the operating activities for the first half of 2015 increased by 3.4% compared to the same period of the previous year.
- The consolidated net profit for the first 6 months of 2015 increased by 2.9% compared to the same period of the previous year.
- The cost of sales and administrative costs during the first 6 months of 2015 increased by 0.2 p.p. and amounted to 14.1% compared to the same period of 2014.
- The effective tax rate for the Group for 6 months of 2015 cumulatively was 14.6%.
- The operating profit was PLN 99,8 m. The change in the operating cash flows results mainly from the change in the rotation of inventory related to the introduction of a new stock replenishment policy and the increasing of the accounts payable turnover.
- The stock turnover for the Group was 155 days – an increase of 13 days compared to the same period of the previous year.

Revenues increased in almost all geographical markets.

The Company has been consistently expanding its business in Central and Eastern Europe. This market displays a large potential of growth and a net profitability higher than the domestic market. Explanatory notes to the interim condensed separate financial statements prepared for the period of 6 months ended on 30 June 2015.

1.1. Accounting principles

Declaration of compliance with IFRS

Interim condensed separate financial statements of Inter Cars S.A. (hereinafter referred to as "the condensed interim financial statements") were prepared for the period of 6 months ended on 30th June 2015.

These condensed separate interim consolidated financial statements were prepared in accordance with the International Accounting Standard IAS 34 "Interim Financial Reporting" relating to interim

financial statements and is not inclusive of all information required with respect to annual financial statements.

These condensed separate interim financial statements should be read together with the audited separate financial statements prepared in accordance with the IFRS for the year ended on 31 December 2014. No changes to the accounting principles applied by the Company were made during the reporting period presented compared to the those described in the financial statements for the year ended on 31 December 2014.

The accounting principles applied by Inter Cars are the same as those applied by the Group, with the exception of interest in subsidiaries, valued at the historical costs minus revaluation write-downs.

Changes in IFRS and their interpretation which became effective as of 01 January 2015 until the date of approval of the financial statements for publication had no material bearing on these financial statements.

The Company expects that the new IFRS standards, changes and interpretations thereof, published but not yet applicable, shall not have a material bearing on the separate financial statements, except for the new standards IFRS 9, IFRS 10 and changes to IAS 27 allowing application of the equity method to separate financial statements.

The Company has not taken a decision yet on implementing the changes to IAS 27.

The interim condensed separate financial statements of Inter Cars S.A. were approved for publication by the Management Board on 31 August 2015.

The interim condensed separate financial statements of Inter Cars S.A. were prepared under the assumption that the company shall continue as a going concern in the foreseeable future.

All values presented in the interim condensed financial statements were expressed in PLN, unless otherwise indicated.

1.3. Information on business segments

Inter Cars S.A. is a spare parts distributor.

1.4. Seasonality

The demand for spare parts is seasonal. The peak season falls in the second and third quarters. The demand is lower at the beginning and the end of the year.

This is directly linked to the seasonal nature of some repairs for which the spare parts are required, and to the smaller number of repairs made by clients during winter.

1.5. Dividend

On 9 June 2015, the General Meeting of Inter Cars S.A. adopted a resolution to pay a dividend of PLN 10,059 thousand , i.e. PLN 0.71 per share from the 2014 profit. The payment of the dividend was realized on 14 July 2015.

1.6. Material evaluations and estimates

No material changes to the evaluations or estimates presented in the annual separate financial statements for 2014 were made during the reporting period.
